## Wireless Internet

Exhibition Park is pleased to offer our customers AutoSensing B/G wireless capabilities. Signage indicating "TCL Wi-Fi HotSpot" where customers can access the Internet on their laptops or mobile devices, is located throughout our facility. The end user will pay \$10.00 plus HST for 24 hour use and have the option to pre-pay for up to 5 days at a reduced rate for each additional day. Registration occurs on-site after connecting to the HotSpot, when you will be directed to the payment screen upon opening an internet browser.

Please note that the bandwidth provided (5MB downstream) is shared throughout the facility. If you require a dedicated internet connection, please make arrangements through your preferred service provider.
